Nat

Conceito

ICMP (RFC 792): Echo Request/Reply (ping), Destination Unreachable, Time Exceeded (traceroute).
DHCP (RFC 2131): DORA (Discover, Offer, Request, Ack), fornece IP, mascara, gateway, DNS. ARP: descobre MAC pelo IP. Request broadcast, reply unicast. Cache ARP com timeout.

ICMP / ARP / DHCP

Atividade Prática

`ping -c 4 8.8.8.8` RTT. `arp -a` tabela ARP. `ping -c 4 google.com` para ver DNS + ICMP.

Pesquisa

Pesquise DHCP DORA: Discover (broadcast), Offer (reserva), Request, Ack. Renovacao: T1 (50%), T2 (87.5%).

Requisitos

Acesso ao terminal. Comandos: `ping` , `arp -a` .
